ALL4U **Franchising** **Opportunity**

New Vision for Success

To be
All4U
franchisees
be a part
something
really innovative.

The ALL4U market franchise system is a new, unique opportunity in the Uzbek market to open your own retail business without unnecessary risks.

In all processes related to the franchise system, ALL4U adheres to the principle of a three-way relationship for franchisees, suppliers and employees. Being an All4U franchise is being part of a large network whose goal is to help you succeed in providing quality retail services in every area, every day.

The ALL4U franchise creates unique economic growth opportunities for thousands of new retail franchisees across Uzbekistan.

The first step is always the most difficult, sometimes difficult. However, in the end, the result brings many benefits and rewards for the franchisee.

Not standing in one place and striving to develop means being an ALL4U franchisee. We always look ahead and build on the stories of those who have already written their success story with us... and there will certainly be more.

We strive to offer the best retail franchising opportunities in Uzbekistan today and for future generations.

We offer a detailed, liquid business plan for people whose commitment to excellence stands out from the rest. We invite our potential partners to rely on a popular brand and network of resources, suppliers and a complete support system to achieve success and prosperity.

"Relationship doomed to success"

"Relationships doomed to success" is mutual understanding, understanding and support working in both parts of the franchise system.

From the earliest days of the ALL4U franchise, the company's goal has remained unchanged: to provide high-quality service and quality of customer service in each ALL4U branch.

Delicious prices, quality service, good and convenient retail outlets: Our focus is on the fundamental principles for growth - Service, Cleanliness, Quality and Accessibility.

ALL4U is not just looking for franchisees, we are looking for people who are ready to take on the challenge. The desire and desire to develop day by day and meet high standards in everything. People with high ambitions, fire in their hearts, and who do not put up with rejection.

Well-coordinated teamwork at all levels, from the initial discussion of the project to the full support of each other in all matters. In the Franchising Opportunities system, everyone has an important role to play in creating a unified operating chain of branches. This combination will propel ALL4U to success in the franchise market in Uzbekistan. The franchise allows thousands of people to build their own business and achieve financial independence as part of ALL4U Franchise Groups.

Moving forward and expanding the excellence of its franchises, ALL4U will become the undisputed leader in retail franchises. To be the owner/operator of ALL4U means to become a part of the ALL4U Family, to become a part of something bigger.

"To stay in place, you need to move. To move forward, you need to run."

Today, ALL4U sets the gold standard for franchising. Calling people to share the brand with them and develop in them a craving for self-development.

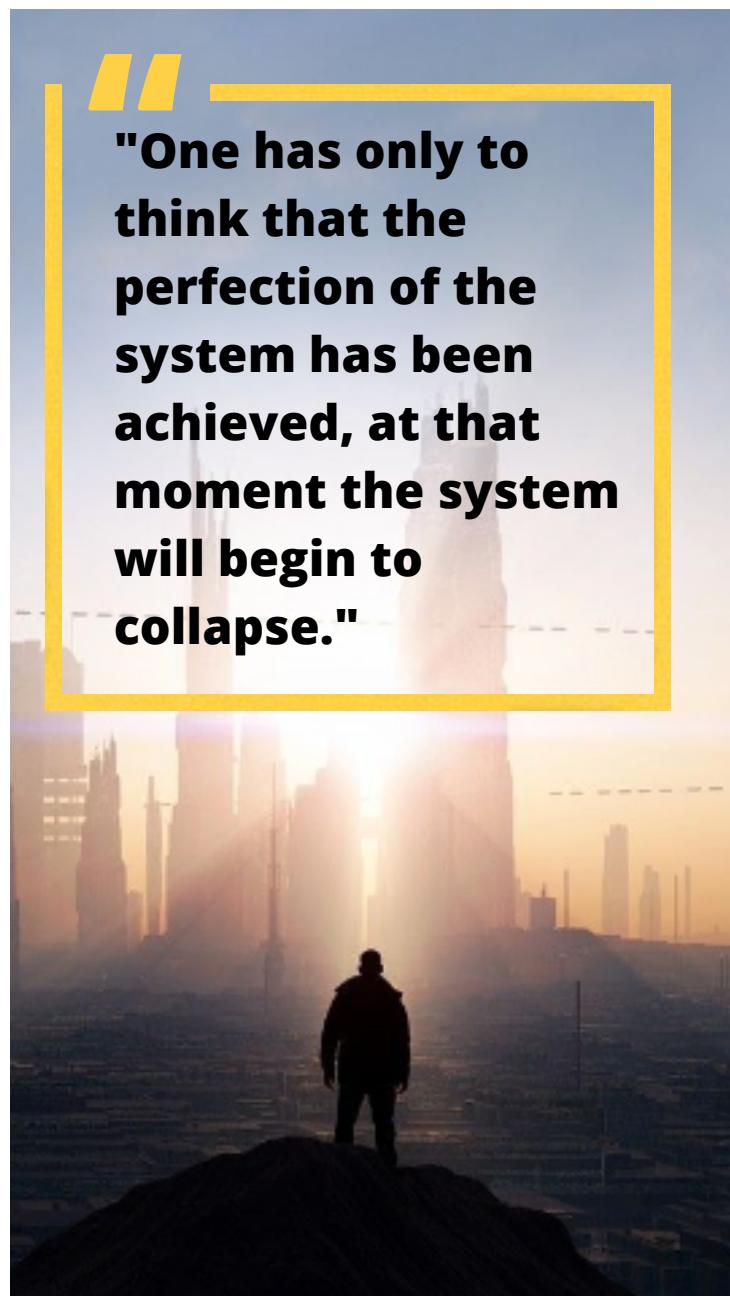

However, in a dynamically developing world, nothing is permanent. The world is constantly changing, evolving and moving faster. Customer tastes and preferences change, and their expectations are always higher. And together we will strive upward not after them, but on an equal footing with them.

One of the fundamental principles of ALL4U franchise development is continuous development. You can't stop there. One has only to think that the perfection of the system has been achieved, at that moment the system will begin to collapse. Therefore, it is beneficial for us as franchise owners, and for you as a Franchisee, to stop moving forward and create new ideas for the convenience of our customers.

We are always moving forward to be and remain the best retail franchise opportunity in Uzbekistan.

ALL4U franchising opportunity will change the way you run a retail business. By gathering a family of franchisors, we will earn our success, and not expect it or assume it.

"One has only to think that the perfection of the system has been achieved, at that moment the system will begin to collapse."

ALL4U and those we serve

The franchise system is based on the firm belief that franchisees must reflect the diversity of the community we serve and share their interests with them.

In order to create the best franchising model in Uzbekistan, and then in many other countries, we build relationships with the owners of local retail branches based on transparency and democracy in the manifestation of their ideas and desires of franchisors. Unlike other franchises, we offer our franchisees to manage their own assets, points of sale, warehouse management and purchasing.

By embodying our dreams and ideas, we create something truly unique and grandiose. And we follow one of our commandments: never stop developing. We move with the times in accordance with our values in partnership with those who represent us and our brand.

The ideal does not exist, but who said that we cannot try to catch him in Excellence

ALL4U is justifiably proud of the opportunities it provides for owners/operators. Continuous demonstration of Excellence in the franchising market and in all its branches.

We strive for Excellence in managing our retail outlets with franchisees. We help our partners/franchisors become effective leaders, have a full support policy and provide a wide range of ready-to-sell products.

We strive for Excellence in our franchisees, whom we welcome as our partners. We invite operators outside of ALL4U to become our partners, as well as those who grow with us in our ranks, and help them spread their wings and teach them to fly and feel the freedom and swift wind around.

We strive for excellence in policy support for our franchisees. Our franchisee support policy is multifaceted and offers a wide range of services. Starting from the full provision of a working and liquid business project, ending with the full provision of suppliers, the necessary equipment and business training.
